REMOTE EDUCATION PROVISION - SANDSIDE LODGE SCHOOL

There may occasionally be exceptional circumstances when school leaders or the Local Authority decide it is not possible to safely open the whole school or specific classes. Where this is the only viable option, Sandside Lodge will provide details of remote education arrangements to help students stay on track with their education.

In the event of your child's class being closed, parents/carers will be contacted by the school and class teachers will provide information about the arrangements for continuing the student's learning.

Teachers will ensure students have access to appropriate work and support on a needs led basis.

If your child is not able to access remote education without adult support, Sandside Lodge will work with the family to arrange how best to support their child.

Free School Meals

If your child is eligible for benefits-related free school meals and are receiving remote education, Sandside Lodge will provide **either** a lunch parcel for you to collect from the school or will issue you with a food voucher. **If you require your child's free school meal, please get in touch with the school.**
